Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 12-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rader (US 5,063,859) in view of Maley (US 3,822,493).

Rader discloses a railroad car body comprised of an upper deck and a lower deck which defines upper and lower compartments. A plurality of seats are arranged in both the upper and lower decks of the railcar. A set of stairs and landing are positioned between the decks and allow passengers to move from one deck to the next. The railcar is further comprised of end doors at either longitudinal ends of the car which allow passengers to move from one car to another in the train consist. Access doors are also placed on the sides of the railcar intermediate the ends of the car allowing passengers to board and disembark the car.

Rader discloses the railcar as disclosed above. However, Rader does not specifically disclose the use of identifying means on the railcar. It is well known in the art that railcars will have signs on the exterior to show the destination of the railcar or a specific car name or number. It is also well known in the art that railcars will also have identifying means on the interior to show passengers where certain sections of the railcar are, such as blocks of seat numbers, or to show the passengers where the exits

Art Unit: 3617

are as well as what the is the next destination of the train. Maley discloses an example of a changeable sign used on a railcar to convey various pieces of information to the passengers. It would have been obvious to one of ordinary skill in the art to have used a sign, like that of Maley, on a railcar, like that of Rader, in order to convey pertinent information to the passengers of the car.

Response to Arguments

Applicant's arguments with respect to claims 1-11 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
